REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Upon entry of applicant's "Amendment After Final" filed February 14, 2006, it is **agreed** that this application is in condition for allowance. In particular, the 35 U.S.C. § 102(b) rejection of claims 29-30 as anticipated by Brownell (US 3,959,172), as set forth in the final rejection, has been **mooted** by the cancellation of these claims, while applicant's terminal disclaimer has **overcome** the nonstatutory obviousness-type double patenting rejection of the claims based upon the claims of US 6,734,334 (i.e., the parent application). **Thus**, all remaining claims—namely, instant claims 21-28—are now considered allowable over the prior art of record, since each of these claims clearly defines over the closest prior art of record, in accordance with paragraphs 6.-9. of the final rejection.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
